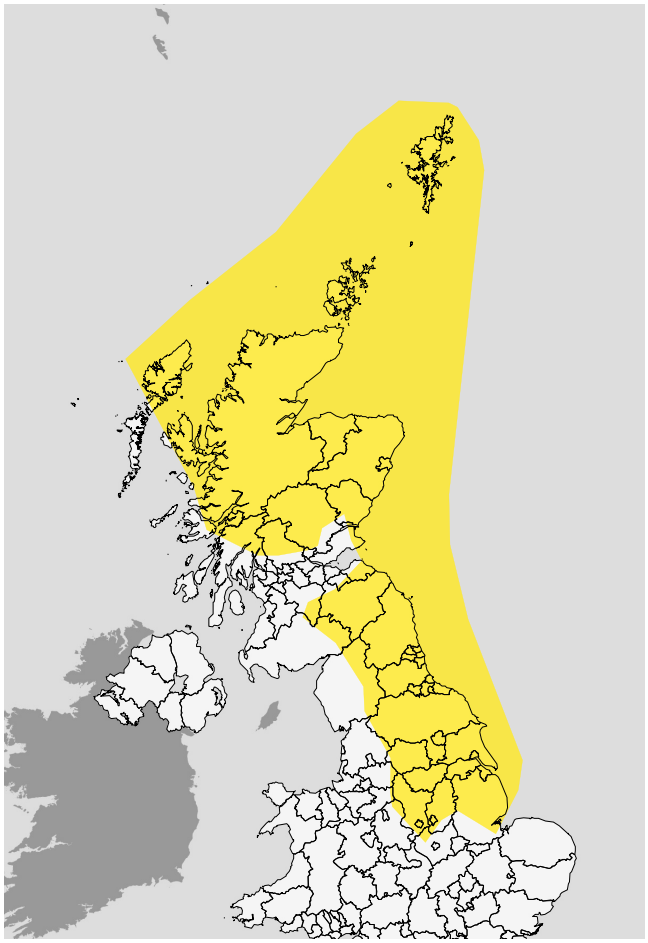
Yellow warning
Ice

Between
17:00 Sat 27 Nov 2021 and
11:00 Sun 28 Nov 2021



A cold night with icy stretches likely to form quickly Saturday evening

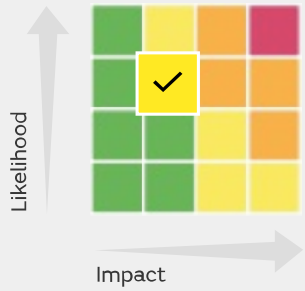
What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some roads and railways may be affected with longer journey times by road, bus and train services

Further details

Rain and sleet showers will continue Saturday evening and overnight into Sunday around northern and eastern Scotland and eastern England. These will turn to snow at times to low levels but mainly over modest high ground with some small further accumulations.

Surfaces will remain wet from these showers with icy stretches likely to form readily Saturday evening. There is also likely to be some icy stretches forming where snow is already lying over parts of the high ground of northern England and Scotland.



Medium likelihood of low impacts

Issued at 10:01 Sat 27 Nov, 2021

Yellow warning
Ice

Between
17:00 Sat 27 Nov 2021 and
11:00 Sun 28 Nov 2021

Further Details (continued)

There is a chance of some more general snow falling over the far north and northwest of Scotland during Sunday morning and this may bring some local further small accumulations.
